Numer katalogowy	LB12PNT-L
Kod producenta	LB12PNT-L

Opis produktu

Lens Bodies is pleased to present the new "Ponente" bodyshell, for 1/12 OnRoad cars.

The "Ponente" has been tested in the wind tunnel and by our Factory Drivers to ensure the best performance in the 1/12 onroad category.

FRONT DESIGN

The slightly pronounced nose but with slightly higher wheel arches ensure that the car has a lot of steering without losing corner speed.

REAR DESIGN

Slightly more pronounced side walls and a very flowing line from the front fairing to the rear improve driveability and increase traction out of corners.

SIDE DESIGN

The side design with all its recesses helps to load more air and increase lateral grip especially on power.
