Opis produktu

The 1/8 Onroad Body Stiffener from Milansport was made to meet the need for better support for the bodyshell allowing to use the full potential of the aerodynamic that the bodyshells provides.

The stiffeners are a 3d printed holders with 2pcs of 2mm carbon rods providing the best stiffness and support.

You can mount the stiffeners with double side tape, glue or just with a M3 screw (the best option is double side tape + M3 screw)

The set provides 8 pcs of stiffeners - 4 for each side of the shell.

Technical data:

- weight of set = 20g
- carbon rod 2mm
- 3d printed holders from high strength material
