Opis produktu

The Bittydesign CA45 1/10 190mm FWD Clear Body is the perfect choice for your 1/10 front-wheel drive (FWD) RC vehicle. Inspired by Italian automotive designs, the CA45 combines aesthetic appeal and optimized racing performance.

Key Features:

- 1. Durable Polycarbonate Material: The CA45 Clear Body is made of resistant polycarbonate, ensuring it withstands the demands of racing while maintaining an impressive appearance.
- 2. Easy Assembly: The 190mm wide body is specifically designed for 1/10 FWD RC vehicles, ensuring easy assembly on popular chassis like Tamiya, Xray, Yokomo, and Schumacher.
- 3. Customizable Design: The clear surface allows you to personalize your RC vehicle with individual colors and designs to stand out on the racetrack.

Opt for the Bittydesign CA45 1/10 190mm FWD Clear Body to give your RC vehicle a unique look and outstanding Performance.
