Opis produktu

It's a 3d printer bumper for CRC 1/12. It's been made from a flexible and durable material. Design was made for better support of the bodyshell in front for the most lola type shells.
The size was defined according to the most used body shell position, width is legal according to the rules and height is the same as the original foam bumper.

Measurement

height - 7mm

width - 140mm

the distance from the body post to the beginning - 22mm
