Opis produktu

Execute XQ10 1/10 Competition Grade Electric Touring Car Kit

Newest Execute touring car, with modernized updates. Comes in a mid pulley configuration, split bulkheads at a more economical price. Several minor changes to the geometry, for a even more neutral handling car which makes it suitable for a more wider setup window.

Feature:

- Adjustable top deck flex with inserts
- Comes with strong plastic parts which use 3.0mm suspension pins in the outside and inside hinge for less play and a more rigid construction
- X-Rings included in the shocks and differential for smoother operation, made from a new material which better deals with expansion due to silicone oil and
- Redesigned steering rack for a more linear and smooth steering reaction
- Built in Rear belt tensioner in the motor mount
- Lowered bumper foam for use with modern touring car bodies
- Split bulkheads aimed for low traction tracks
- Bearing Supported Anti Rollbars for smoother suspension operation
- Lowered positioned shocks allows a lower center of gravity for high cornering stability
- Plastic Suspension mount inserts for easy roll center adjustments

Specification:

- Wheelbase: Adjustable 254 to 258mm
- Width: Adjustable 185mm
