Hobbywing Xerun Justock 13.5 Turn G2.1

Cena brutto	330,00 zł
Cena netto	268,29 zł
Dostępność	Dostępny
Numer katalogowy	HW30408010
Kod producenta	HW30408010

Opis produktu

Product information "Hobbywing Xerun Justock 13.5 Turn G2.1 Motor Sensored 3200kV for 1:10 Stock"

The next stage in the development of the Justock motor series offers a refined and functional design compared to the G1 and G2 motors. As a G2.1 engine, it is defined primarily by its ease of disassembly to make repairs and replace parts. Thanks to its special appearance, too much heat is optimally prevented and the three soldering tabs made of copper facilitate the connection of the regulator immensely.

Features Motor:

- Heat-resistant magnet and double insulated windings
- Precision bearings
- Cool look and good heat-dissipation
- Linear and smooth control
- Re-buildable design

Technical Specifications Motor:

Typ:	Brushless / Sensor
Pole:	2
KV Rating:	3200KV
Windings:	13.5T
LiPo Cells:	2-3s
No load Cutrrent:	4.0A
Outer Diameter:	35.9mm
Length:	52.5mm
Shaft Diameter:	3.17mm
Weight:	175g
Timing:	Fixed
Applications:	1/10, 1/12 Touring Car und Buggy (Stock Class)
