HSPEED HERAKLES NEO AC/DC DUAL-CHARGER

Cena brutto	832,23 zł
Cena netto	676,62 zł
Dostępność	Aktualnie niedostępny
Numer katalogowy	HSP0016
Kod producenta	HSP0016

Opis produktu

The H-SPEED HERAKLES MINI is a small miracle of charging. Despite its size, the HERAKLES MINI supports a large number of batteries available on the market.

With its charging power of 60W, the HERAKLES MINI 2-4S charges lithium batteries with up to 6 amperes in the fastest possible way.

The display shows all the necessary details such as charging capacity, battery status and much more. at.

The optimized software automatically adjusts the charging and discharging voltage and can thus avoid damage caused by overcharging.

In addition, a USB port can be used to charge mobile phones or tablets.

Technical specifications

- Input voltage: AC 100-120V or 220-240V, DC 9.0-32.0V
- Output voltage: 0.1-30V
- Charging current: 2x 0.1-16.0A
- Discharge current CH1: 0.1-3.0A/0.1-15.0A (External discharge mode)
- Discharge current CH2: 0.1-3.0A
- Charging power DC input: 2x 300W
- Charging power AC input: Max. 300W
- Discharge power CH1: 8W/200W (External discharge mode)
- Discharge power CH2: 8W
- LiPo/LiFe/LiIon/LiHV cell count: 1-6S
- NiCd/NiMH battery cell count: 1-16S
- Pb battery power: 2V-24V (1-12S)
- Wireless charging power: Max. 10W
- Balance current: Max. 1000mAh/cell
- LCD screen type: 3.5" 480x320 LCD
- Dimensions: 120x115x75mm
- Weight: 810g

The motor test function allows you to check the condition of the motor.

The servo test function checks the rotation and the steering angle of the servo.

An external discharge function allows you to significantly reduce discharge times.
