Opis produktu

The 1/10 FWD Body Stiffener from Milansport was made to meet the need for better support for the bodyshell allowing to use the full potential of the aerodynamic that the bodyshells provides.

You can mount the stiffeners with double side tape, glue or just with a M3 screw (the best option is double side tape + M3 screw)

Technical data:

- weight 1.1g per piece
- carbon rod 1,5mm
- 3d printed holders from high strength material
