Kod producenta	<b>OFC-SS-3920</b>

### Opis produktu

OfficinaRC is synonymous with quality, obsessive attention to details and continuous research. Today we present the reinterpretation of the famous Alu Shim. OfficinaRC have applied a laser on the side of the Shim in order to immediately recognize its size, saving time and making everything easier. Now you will no longer have any doubts about which size it is, at a glance you will be able to recognize the fitted size and, above all, you will no longer need a caliber. The goal of OfficinaRC is to make the life of the drivers ever simpler, more intuitive and essential, increasing the performances. Measurements are defined by solid lines and segmented lines. The solid ones indicate millimeters and the segmented ones indicate half millimeters. At the moment the following sizes are available: 3x9x1.5 mm 3x9x2.0mm 3x9x2.5mm 3x9x3.0mm 3x9x3.5 mm The package contains 8 pieces per size. Try them and you will never be able to do without them!
