Opis produktu

The parts provides better support for the shell in that area making the car more stable. From center body post to the end it has 25mm in 30 degrees angle on outside.
During tests we found that the car got better handling due to the downforce in the rear.

It was designed to fit most 1/12 shells.

In set you got:

2 x oring,

2 x 2mm foam

2 x 3mm foam

to find the best fitting to your shell setting.

*It will fit other cars with 6mm diameter body posts
