Cena brutto	62,10 zł
Cena netto	50,49 zł
Dostępność	Dostępny
Numer katalogowy	305178
Kod producenta	305178

Opis produktu

Unique lightweight composite front solid axle for the X4. The composite solid axle has a very stiff structure and ultra-lightweight design that was achieved by injecting the entire solid axle from XRAYs own self-designed & mixed lightweight composite material. The shape of the solid axle has been updated, for a more centered front belt position that improves consistency & forward traction.
