XRAY 373029 X12'21 ALU REAR BULKHEAD - LEFT

Cena brutto	168,03 zł
Cena netto	136,62 zł
Dostępność	Dostępny
Numer katalogowy	373029
Kod producenta	373029

Opis produktu

CNC-machined left motor-side rear bulkhead made from premium extra-hard Swiss 7075 T6 aluminum, black coated for long life and stylish look. Redesigned to achieve maximum durability. The bulkhead allows for rear axle height adjustment via traditional eccentric bushings.

Bulkheads feature centering pins on the top and bottom surfaces that align the upper and lower pod plates during assembly and prevent movement between the components during a crash. To further enhance the assembly's strength and resistance to tweak, the upper pod plate now uses 4 mounting screws to secure it to the bulkheads

Must be used with right rear bulkhead #373019.
