XRAY 378002 X12 Shock Absorber Set - Black

Cena brutto	213,17 zł
Cena netto	173,30 zł
Dostępność	Dostępny
Numer katalogowy	378002
Kod producenta	378002

Opis produktu

The center shock has redesigned geometry with the mounting point moved further back for quicker direction change, as well as improved on-power steering.

The shock features stiffer spring for improved steering and response.

The fully-adjustable shock features an aluminum shock body that is hard-anodized for ultra-durability. The fine-threaded shock body allows for quick and easy shock spring preload adjustment.

Tiny, thin shock membrane gives smooth dampening characteristics, and a super-soft silicone shock O-ring gives super-smooth operation while preventing oil leakage.

The ultra-finely finished shock shaft with precise-molded composite shock piston ensures optimum shock oil flow and smooth shock absorber action.
