Opis produktu

It's a 3d printer bumper for **Xray X12** with **Protoform AMR** Shell.

It's been made from a flexible and durable material. Design was specially made for X12 car with Protoform AMR Shell. It provides better support for the shell without any need for body post support. The bodyshell is lying directly on the bumpers. The Split part of the Bumper makes it lighter than the standard AMR bumper one and provides support in the important areas needed.

Width is legal according to the rules.

Measurement

height - 13mm

width - 140mm

the distance from the body post to the beginning - 22mm
